

## TRADE INFORMATION

### Weston Park International Model Show 14th/15th/16th June 2019

*THE EVENT TO WHICH AVIATION ENTHUSIASTS REALLY LOOK FORWARD.*

The 2018 show was a great success. The weather was not great but the excellent combination of an outstanding location and a unique aviation event drew over 6000 spectators from miles around over the three days.

The number who stayed for the whole event and camped this year was over 800 caravans or tents

The list of international modellers who attended 2018 was the largest so far and is set to get bigger for 2019. We are being contacted from many parts of the globe by display pilots who wish to participate, plus of course our many home-grown talented fliers. Our intention for next year is to present a show to be without equal at home or abroad.

A large attendance is anticipated and a target of 8000 has been set.

To be part of this, and to participate, all you need to do is complete the booking form, and send it to our trade organiser to attend, and trade.

The organisers look forward to having the pleasure of seeing old friends and lots of new faces on the trade line for 2019.

Although there is over 800m of trade space available, demand often outstrips supply, so early booking is recommended.

Marquees can be arranged and sited if required.

Power is not supplied but quite generators will be OK.

This is a three-day event, so to get the maximum out of the show traders are advised to be ready to trade Friday Morning.

Traders may arrive any time from Thursday AM.
